Become a Girls Who Code Club Facilitator at the CSI Tech Incubator

// teach a girl to code and she'll change the world

{ } girls who code www.girlswhocode.com

To learn more about facilitating the Girls Who Code Club at the CSI Tech Incubator, please reach out to Ismael Hasan at 646.766.9554 or ismael.hasan@csi.cuny.edu.

girls who code

<What is a Girls Who Code Club?>

// Girls Who Code Clubs are meant for high school girls to join our sisterhood of supportive peers and role models, and use Computer Science to change the world. Club members will be able to learn from fun and simple online coding tutorials, build community though interactive activities, and learn about inspiring role models. Members would then work in teams to design and build a Girls Who Code Project that solves real world problems they care about through code!

<Who is a Girls Who Code Facilitator?>

// Clubs are led by Facilitators, who can be teachers, computer scientists, students or anyone with a passion for tech. Facilitators will be compensated at $15/hour for 6 hours/week. Clubs will be held once a week, from November, 2019 through May, 2020.

<To Facilitate a Club, you must:>

- ☑ Be 18+
- ☑ Pass a background check
- ☑ Commit 6 hours per week, including travel and prep time.
- ☑ Be comfortable learning alongside Club girls as they explore the foundational computer science concepts of variables, loops, conditionals and functions.
- ☑ Have a passion for Girls Who Code's mission to close the gender gap in technology and the ability to foster community within your Girls Who Code Club.
